

# SEATTLE STORM CENTER FOR BASKETBALL PERFORMANCE

CONSTRUCTION UPDATE | JUNE 2023

## UPCOMING CONSTRUCTION ACTIVITY

- The team is set to pour large amounts of concrete throughout June as we form concrete walls for the new building. You will see the walls around the perimeter of the building begin to take shape. This activity will result in an increased trucking and equipment presence on site.
- As part of this work, we have also started to install structural steel in the building, called rebar, on the northeast and south sides of the site. This activity will continue through June.
- Due to the high water table in the area, our team will install a waterproofing membrane around the site's perimeter this month, in addition to concrete foundation and tilt panel formation.
- This month's activities will result in increased construction traffic on the south and east sides of the site. We hope our neighbors will join the Storm players and the entire team in the excitement of seeing the building begin to rise from the ground up! We look forward to sharing the project's progress in the months to come.

## The following sidewalk changes will remain in place in June:

- The sidewalk along the West Bertona Street will be closed along the length of the south side of the job site.

## WORK HOURS

Monday - Friday: 7 a.m. to 6 p.m.

Saturday: 9 a.m. to 6 p.m.

## CONTACT US

For any traffic-related questions, contact Superintendent Charlton Ramsey at [charltonr@sellen.com](mailto:charltonr@sellen.com) or 206.491.0233. For other general questions or concerns, email our project team at [storm@sellen.com](mailto:storm@sellen.com).

## MEET THE TEAM

Currently, 95% of all design and engineering team are women and people of color.
